PROFESSIONAL SUMMARY :

Analytical and detail-oriented **BCA Graduate** with hands-on experience as a **Data Analytics Intern** at **Hummingbyte Pvt Ltd**. Proven expertise in building interactive **Power BI dashboards** and performing data cleaning (ETL) to drive business insights. Skilled in **DAX**, **Data Modeling**, and **SQL**, with a track record of delivering 3 successful analytics projects. Passionate about transforming complex raw data into clear, actionable visual stories to support strategic decision-making.

TECHNICAL SKILLS :

- **Data Analytics:** Power BI (Professional Level), Advanced Excel (Pivot Tables, VLOOKUP), Data Visualization.
- **Core Skills:** Data Cleaning (ETL), DAX (Data Analysis Expressions), Data Modeling, C Programming, C++ Programming, Python (Numpy, Pandas).
- **Languages & Tools:** SQL (Joins & Queries), MSSQL, VS Code, Github.
- **Soft Skills:** Analytical Thinking, Quick Learner, Problem Solving, Team Collaboration.

INTERNSHIP EXPERIENCE :

Data Analytics Intern | Hummingbyte Pvt Ltd [JUN - 2025] – [OCT - 2025]

- Developed and deployed **3 comprehensive Power BI dashboards** to analyze complex datasets and provide actionable business insights.
- Performed **Data Cleaning (ETL)** using Power Query to ensure data accuracy and consistency across all reports.
- Utilized **DAX** to create calculated columns and measures for advanced data modeling and trend analysis.

- Designed interactive visualizations (Slicers, Drill-downs, and Maps) to track Key Performance Indicators (KPIs).
- Collaborated with the technical team to interpret data trends and presented findings to senior management.

DATA ANALYTICS PROJECTS :

- **Project 1: Insurance DB Analysis**
 - Created a Power BI report to track monthly sales revenue and regional growth.
 - *Result:* Identified a 15% drop in specific regions, helping the team pivot their strategy.
- **Project 2: Sales DB Analysis**
 - Analyzed customer behavior data to predict churn rates using Power BI visualizations.
- **Project 3: UPI Transaction Analysis**
 - Built an automated dashboard to monitor stock levels and supply chain efficiency.
